### Experience Celebrations...

**\*TY may have travelled the world, but a small part of her heart remains in the bayous of Louisiana, particularly in the backyards sizzling from the heat of fresh seafood, homemade hush puppies and gumbos.**

Experience the celebration of sweet and succulent seafood as you enjoy them Louisiana style. Break open the Canadian red lobsters, spanner crabs and meat crabs to reveal the sweet flesh, or get busy eating the Gumbo, Southern Chicken & Waffle and more. The prices of seafood are adjusted depending on the market prices, but rest assured that Crab Factory only gives you the best selection at the lowest price.

Get the ultimate Southern hospitality with the Big Bang Theory. Ideal for a group of 8-12 seafood lovers, the bucket comes with king crab, lobsters, meat crabs, prawns, yabbies, mussels, corn, chicken sausages, potatoes and button mushrooms. It is served with homemade sauces on the side, and you get to choose your spicy level for each of the Jamba & Signature Southern Bang sauces.

### Experience Fire...

**\*If you think that barbecue is an idea exclusive to the Western palate, you haven't heard TY speak passionately about our very Malaysian BBQ. Ember & Bara is a culmination of TY's memories on a good barbie day in Australia, where a mix of Australian and Malaysian BBQ were the order of the day.\***

Experience the heat from the grill as it is transferred to your plate with every order from the Ember & Bara BBQ menu. The kitchen brings you food cooked over open charcoal fire, with BBQ flavours from traditional Western and Asian influenced sauces.

**\*Raksaksa is Malay for Monster and Mirai is Japanese for future. This is simply TY's throwback to her childhood days where Ultraman comes to save the day on television at least. It is also a recollection of her best days roaming the streets of Japan\*.**

Raksaksa Mirai is a collection of contemporary Japanese curry rice dishes. Served with five selection of flavoured rice signature, tobiko, garlic shallot, spicy shijimi and mango, the topping have been carefully selected to bring you the flavours of Tokyo.

**\*While travelling in Tasmania, Australia, TY remembers carrying an oyster shucker around if only to experience the freshest oysters from the sea.\***

Experience the freshness of the sea with the oysters at Brolly. The Fine De Claire oysters are flown in fresh from France every week. These oysters are harvested from the French Atlantic Coast, and offer a great balance of salty and sweet.

### The "Experience Life Project"

More than sharing her gastronomic experience, TY wants to share her love for adventure, travel, ocean and most importantly the curiosity for new experiences with the world.

It will be made possible through the "Experience Life Project".

The "Experience Life Project" will have 2 prongs of experiences:

#### A. Water-Based Activities.

The collected pool of money will be used to give underprivileged children a chance to experience any water-based activities from learning about the marine world (e.g. through visits to Aquaria in KLCC), to swimming, white water rafting, surfing stand-up paddling or waterfall visit.
